

# Digital Imaging Group Eastern Centre

Meeting on Sunday 7th October 2012

## A Surreal and Creative Day with Mark Mumford FRPS

When you look at my surreal digitally manipulated photographic art you may think I'm a bit of a weirdo, I don't see myself as one and if you ever get to meet me you'll see I'm not. I do have a vivid imagination and with reasonable Photoshop and photographic skills I am able to create some rather interesting work.

My talks are about my artistic background and my interest in surrealism along with my current surreal photographic art. They are somewhat different to what is usually heard and seen in camera clubs. I have been described as a Master of my craft by those that know a thing or two about photography and art.

I've also been described as "probably the best Digital Artist in Wales". I don't know about that but I do get a lot of praise from people that see my images.

All RPS members and members of the public are very welcome to attend this meeting.
